The M-Geough Company, Inc.

Courtesy of Erinn V

REPRESENTING A DIVERSE GROUP OF EXCEPTIONAL furniture, lighting, and accessory manufacturers, M-Geough offers a distinct mix featuring contemporary and transitional styles, as well as 18th- and 19th-century reproductions.

Our commitment to client satisfaction, excellent service, and quality products over the past half-century has made us a staple in the world of interior design. We look forward to providing the New England design community with the best in fine furnishings, lighting, and accessories that have characterized our showroom throughout its history.

Our trade-only showroom is located on the fourth floor in the Boston Design Center, which is part of the Innovation and Design Building in South Boston's flourishing Seaport district.

WHAT IS YOUR FAVORITE CITY?

We both love walking through Paris. We love everything about it—the architecture, the museums, the parks, the fashion, the food, the lifestyle, and the people.

WHAT IS YOUR BUSINESS PHILOSOPHY?

To provide the best products and services to our interior design clients to help them realize their design visions. To treat our clients, our staff, and our manufacturers honorably with the utmost respect and care. To continue to learn and evolve, to keep up with the changing needs of our customers.

WHO ARE YOUR GREATEST PROFESSIONAL INFLUENCES?

There are too many to name, but the most important are those from our M-Geough extended family, starting with Jim's grandmother who was an interior designer, Jim's father who started our business, his mother who joined him in the effort, our wonderful showroom family, and the craftspeople who make the products we proudly represent and the owners of the those companies who are the driving force behind them.

WHAT ARE YOUR FAVORITE ACTIVITIES OUTSIDE OF WORK?

We love the outdoors. We love sailing, we love spending time traveling, especially in Europe and in the Caribbean. Jim loves tractors, maintaining our Vermont property, and skeet shooting; I love walking our dog in the Vermont woods, reading, and hosting our friends for relaxed dinners.
