Miss Fix It

LOS ANGELES Designer Erinn Valendich proves without a doubt the industry maxim: Interior designers aren't personal shoppers; they are problem solvers. In her 11-year career designing homes and commercial interiors, she has created dozens of custom pieces when off-the-shelf items just wouldn't do. Her 40-piece line—as well as some of her favorite pieces by fellow designers—is now available to the public at her new 5,000-square-foot showroom, **Erinn V. Maison**, 319 S. Robertson Blvd., LA, erinnvmaison.com
